

**Ideal for renting-maintenance:
installation & regular cleaning**

Suitable for entrances with normal to intense foot traffic.

- Sanimat is the perfect dust control mat between the absorbent / washable models.
- Maintains the floors clean and dry, improving the safety of people.
- Improves the appearance of the entrance of public buildings, trapping most of the dirt that can enter into the building.
- Sanimat extends the life of the floors.

Balanced performance

- The fabric collects the dirt and moisture from shoes holding them between their fibers.
- The sober dark gray color ensures a permanently clean look.
